

# Spend More Time Delivering Care and Less on Paperwork

Fast, Easy & Affordable Document Management Tailored for Home Care Professionals

Stop chasing paperwork, worrying about maintaining regulatory compliance, and spending a fortune on printing. Scan123 can provide your home care business with an easy-to-use, affordable solution that can be up-and-running in just days.

### Paperless, Fillable Forms with eSignature

Delight both staff and clients by converting existing forms to easy-to-complete digital forms. We build them for you. You receive the benefits of automated and remote onboarding of office staff, caregivers, and new clients.

### Maintain Regulatory Compliance Effortlessly

Rest assured your business is in compliance with state and federal regulations by storing your vital records in a HIPAA-compliant, ransomware-proof, secure and easy-to-use solution.

### Keep Families Connected

Send forms and documents to remote parties allowing them to digitally sign and submit directly into your filing system in a truly paperless fashion.

### Access Documents From Anywhere Anytime

Remotely access any of your documents on any device whether in the office, at home, or on the road at any time - even on weekends and holidays.

“ We have no paper now. All the client data, logs, agreements, and HR documents go right into Scan123. Paper is shredded immediately and all the files are secure. Best of all is that I can find any document for all our active and deactivated caregivers and clients in seconds.
